

# T800

## FULLY RUGGED 8.1" TABLET

2nd Generation T800

Large 8.1" IPS LumiBond® 2.0 sunlight readable display

Intel® Atom Processor x7-Z8750 1.6GHz processor

MIL-STD 810G and IP65 certified

802.11ac next generation WiFi

Unique SnapBack add-ons

Optional FHD camera / rear 8MP auto focus camera

Industry-leading bumper-to-bumper warranty

Optional integrated 4G LTE broadband wireless<sup>1</sup>

### Large 8.1" IPS Display.

The 2nd generation T800 features a large 8.1" IPS display that utilizes our revolutionary LumiBond 2.0 technology to achieve a display that is more readable, and offers better contrast and more crisp colors than any other rugged tablet display. By bonding the display glass with the touch panel and LCD, we've created a single pane that is both more durable and readable.

### Lasting Power

The T800 fully rugged tablet delivers up to 10 hours of battery life on a single charge. Additionally, you can have endless SnapBack battery add-ons (each providing an additional 10 hours) at the ready for potentially infinite battery life. This allows you to keep working without ever shutting down your apps or the Windows OS.

### SnapBack Add-ons.

We designed the T800 for expandability with our unique SnapBack add-ons. Integrated as an extension to the T800, you can add an extended battery or 2-in-1 SmartCard and RFID reader, or 2-in-1 SmartCard and Magnetic Stripe reader. They easily snap right on or off, no tools necessary.

### Powerful, Yet Efficient

Inside the T800, we packed an incredible amount of power and technology. Built with the latest Quad-core Intel® Atom™ x7-Z8750 1.6 GHz processor, the T800 provides all of the performance you need to get things done, with no compromise to battery life.

### Vehicle Ready.

For vehicle deployments, the T800 can be configured with triple pass-through antenna ports allowing you to simultaneously connect high-gain GPS, WWAN and WLAN roof mounted antennas.

### Bumper-to-Bumper Warranty.

Accidents happen. Only Getac offers bumper-to-bumper coverage standard on every T800 rugged tablet.

<b>Security</b>	TPM 2.0; NIST BIOS compliant; Optional SnapBack SmartCard Add-ons Optional Absolute™ software		
<b>Communications</b>	Optional 10/100/1000 base-T Ethernet (occupies expansion slot), Intel Dual Band Wireless-AC 7265, 802.11ac, Bluetooth (v4.0); Optional dedicated GPS; Optional 4G LTE multi-carrier mobile broadband; XLTE Ready <sup>1</sup>		

### Specification subject to change without notice.

<sup>1</sup>Data plan required. Cellular data is available in the US on Verizon Wireless and AT&T networks. LTE is available in select markets. Check with your carrier for details. 4G LTE configuration must be ordered at time of purchase.

<sup>2</sup>Computers configured with a 32-bit operating system can address up to 3GB of system memory. Only computers configured with a 64-bit operating system can address 4 GB or more of system memory.

<sup>3</sup>Expansion slot factory installed and limited to one option. Subject to minimum purchase requirements.

<sup>†</sup>For storage, 1GB = 1 billion bytes; actual formatted capacity less.

<sup>††</sup>Weight varies by configuration and manufacturing process.

<sup>‡</sup> 3 year bumper-to-bumper limited warranty standard. For warranty terms and conditions visit [www.getac.com](http://www.getac.com)
